Overview

The Fund was transitioned to Ironbark Asset Management (Fund Services) Limited ('Ironbark') as Responsible Entity in March 2021.

In seeking to achieve its aim of long-term absolute returns, the Fund will hold a diversified portfolio, typically consisting of exposures to equities, fixed income, commodities, alternatives and cash. In order to maximise risk-adjusted returns the Fund relies on four primary sources of return: (1) asset class timing, (2) relative value opportunities, (3) alternatives, and (4) hedging, with the relative weightings actively managed by the Fulcrum Investment Committee.

The Fund is classified as a hedge fund in accordance with the Australian Securities and Investments Commission, Regulatory Guide 240 'Hedge funds: Improving disclosure'. This classification is based on the fact that the Fund exhibits two or more characteristics of a hedge fund, the characteristics being:

- aims to generate returns that are not highly correlated to published indices;
- charges a performance fee (including at the underlying fund level);
- uses leverage;
- uses derivatives; and/or
- uses short selling.
