Terms and conditions for collection of Tax File Numbers ('TFN') and Australian Business Numbers ('ABN')

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements. For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the Australian Taxation Office. Once provided, your TFN will be applied automatically to any future investments in the Fund(s) where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.

TFN exemption codes:

E	Investments held by pension and benefit recipients – please write the full name of the benefit you receive (e.g. Age Pensions).	N	Non-residents – please provide your country of residence for tax purposes.
O	Entities not required to lodge an income tax return – please provide the reason as to why the entity does not have to lodge an income tax return.	D	Do not wish to quote TFN.
X	Other exemption – please provide us with any other reason for your exemption.

Section 9: Foreign Tax Compliance: US Foreign Account Tax Compliance Act ('FATCA') and other jurisdictions Common Report Standards ('CRS') – ALL INVESTORS MUST COMPLETE THIS SECTION

What is FATCA and CRS?

FATCA and CRS are two ways in which a large number of governments are seeking the same thing - to improve global tax compliance. Both require financial institutions to capture relevant information on foreign taxpayers, as follows:

- FATCA promotes cross border tax compliance by US taxpayers, by implementing an international standard for the automatic exchange of information related to those taxpayers. Australia has entered into an inter-governmental agreement (IGA) with the US to implement FATCA in Australia, to be administered through the ATO. The AUS-USA FATCA IGA requires the ATO to obtain detailed account information for US citizens and/or taxpayers on an annual basis. The effect of this is that, to satisfy their FATCA obligations, relevant Australian financial institutions must identify any US taxpayers and report those taxpayers' financial account data to the ATO. The Tax Laws Amendment (Implementation of the FATCA Agreement) Act 2014 (Cth) gave domestic legal effect to the obligations by inserting Division 396-A FATCA into the Taxation Administration Act 1953 (Cth).
- CRS is a global reporting standard, developed by the OECD, for the automatic exchange of information (AEOI). Its goal is to allow tax authorities to obtain a clearer understanding of financial assets held abroad by their residents, for tax purposes. Over 96 countries have agreed to share information on residents' assets and incomes in accordance with defined reporting standards. Once again, this means that financial institutions around the globe must provide tax authorities with taxpayer financial account data, and the financial institutions must therefore collect this information from their customers and pass it on. The Tax Laws Amendment (Implementation of the Common Reporting Standard) Act 2016 (Cth) gave domestic legal effect to the obligations by inserting Division 396-C Common Reporting Standard into the Taxation Administration Act 1953 (Cth).
