This product disclosure statement ('PDS') is a summary of the significant information relating to an investment in the Ironbark Royal London Core Global Share Fund ('the Fund') and contains references to other important information which is contained in the Additional Information Guide ('AIG'). As such, there are references to the AIG throughout this PDS. Definitions used in the AIG are also used in this PDS. A glossary of certain terms is set out in the AIG. This PDS relates to the class of units known as 'Class A' or 'Class'. The Responsible Entity has issued different classes of units in the Fund and may in future issue other classes of units in the Fund.

You should consider both the information in this PDS and the AIG before making a decision about investing or holding or disposing your investment in the Fund. The information provided in this PDS is general information only and does not take account of your personal financial situation or needs. You should obtain financial advice tailored to your personal circumstances before making an investment decision, having regard to your objectives, financial situation and needs, as well as to assist with determining whether you form part of the target market of the Fund. You should consider the Target Market

Determination ('TMD') for the Fund available at www.ironbarkam.com to ensure that you form part of the target market of the Fund.

The offer of units under this PDS is available to persons receiving this PDS (electronically or otherwise) in Australia or New Zealand and does not constitute an offer or recommendation in any other jurisdiction, or to any person to whom it would be unlawful to make such an offer. If you receive this PDS in New Zealand you should read the important information in the 'Additional information for New Zealand investors' section in the AIG before making a decision, which is available at www.ironbarkam.com. The material relating to New Zealand investors may change between the time when you read this PDS and the day when you acquire the product.

The Responsible Entity and the Investment Manager, or any of their associated entities, or their affiliates, employees, agents or officers do not guarantee the success, repayment of capital or any rate of return on income or capital or the investment performance of the Fund. Past performance is not an indicator of future performance.

The PDS and AIG are available at www.ironbarkam.com or you can request a free paper copy by contacting Ironbark. The PDS and the AIG may change between the time you read them and the time you acquire units in the Fund. You must ensure that you read the PDS and the AIG current at the date of your application.

The information in this PDS is current as at the date of issue of the PDS. However, some information may change from time to time. Information that is not materially adverse to investors may be updated without notice. Updated information will be available at www.ironbarkam.com or you can request a free copy (paper or electronic) by contacting Ironbark.

If a change is considered materially adverse, the Responsible Entity will provide notice and issue a replacement PDS where required by law. Any replacement PDS will be made available at www.ironbarkam.com or you can request a free paper copy.

1 About Ironbark Asset Management (Fund Services) Limited

Responsible Entity

Ironbark Asset Management (Fund Services) Limited ABN 63 116 232 154 AFSL No. 298626 is the responsible entity of the Fund and issuer of this PDS ('**Responsible Entity**', '**we**', '**us**', '**our**'), a wholly owned subsidiary of Ironbark Asset Management Pty Ltd ABN 53 136 679 420 AFSL No. 341020, collectively referred to as '**Ironbark**', as the context requires.

Ironbark is an Australian incorporated company licensed to be a responsible entity, and holds an Australian financial services licence to operate registered managed investment schemes.

The Responsible Entity is bound by the Constitution and the Corporations Act. The Responsible Entity has lodged a compliance plan with ASIC which sets out the key measures which the Responsible Entity will apply to comply with the Constitution and the Corporations Act. The Responsible Entity has established a compliance committee with a majority of external members ('**Compliance Committee**'). The compliance plan is overseen by the Compliance Committee and is audited annually with the audit report being lodged with ASIC.

Ironbark and its related entities are a diversified financial services business providing solutions across asset management and wealth, as well as acting as responsible entity and trustee.

Through our strategic partnerships with international and Australian investment managers, Ironbark provides investment solutions across a diverse range of asset classes including Australian and international securities, alternative investments, domestic and global property securities, and fixed interest securities.

As at 30 September 2023, Ironbark and its related entities have over \$62.9 billion funds under management, trusteeship and advice.

Investment Manager

The Responsible Entity has appointed Royal London Asset Management Limited ('**Royal London Asset Management**' or '**Investment Manager**') as the investment manager of the Fund.

Royal London Asset Management was established in 1988 as an in-house asset management business for a relatively small mutual life insurance company. The following 30 years have seen Royal London Asset Management and its parent grow to become a significant participant within the UK financial services industry.

Royal London Asset Management manages around GBP153 billion of assets (as at 30 June 2023), delivering key investment strategies in equity and bond investing for its clients.

Consent

Royal London Asset Management has given, and not withdrawn, its written consent to be named in this PDS in the form and context in which it is named and for the inclusion of information about it in this PDS and the AIG. Royal London Asset Management has not authorised or caused the issue of, and takes no responsibility for, this PDS or the AIG, other than the inclusion of the information about Royal London Asset Management.

Other service providers

The Responsible Entity has appointed State Street Australia Ltd ABN 21 002 965 200 AFSL No. 241419 as the custodian, administrator and provider of unit registry services to the Fund ('**Custodian**' or '**Administrator**' or '**Unit Registry**'). The Custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

2 How the Ironbark Royal London Core Global Share Fund works

The Fund is structured as a unit trust that is a managed investment scheme under the Corporations Act and is registered with ASIC. When you invest in the Fund you will be allocated a certain number of units and your money will be pooled together with other people's money. This pool of money will be used to acquire investments, in accordance with the Fund's investment strategy, that will be managed by the Investment Manager on behalf of all investors. Investors do not have day to day control over the operation of the Fund.

Investors receive units in the Fund when they invest in the Fund. Each unit gives investors an equal, beneficial interest in the Fund. However, it does not give the investor an interest in any particular asset of the Fund.

The Constitution allows the Responsible Entity to issue different classes of units. Different classes of units generally represent different levels of rights and interests.

Units in the Fund

Generally, unit prices are calculated each Business Day. The unit price is calculated by taking the total market value of the assets of the Fund less the total value of the liabilities of the Fund ('**net asset value**' or '**NAV**'), adjusted for the buy/sell spread divided by the total number of units on issue at the relevant valuation time.

When you invest, we issue you a number of units depending on the amount you invest. Similarly, when you withdraw from the Fund, we calculate your withdrawal proceeds by reference to the number and value of units you hold at the time of withdrawal. The Responsible Entity determines the unit prices of the Fund based on the most recent valuation of assets, property and liabilities (which are determined at regular intervals appropriate to the nature of such assets, property and liabilities). Generally, the Fund's unit price will change as the market value of assets in the Fund rise or fall.

Unit prices will be available at www.ironbarkam.com. You can obtain a copy of the Responsible Entity's Unit Pricing Policy and Methodology and records of any exercise of such discretions under the Unit Pricing Policy and Methodology, free of charge by contacting the Responsible Entity.

Applying for units

You can acquire units by completing an Application Form. The minimum investment amount for the Fund is \$10,000.

Units are generally issued after the completed Application Form and application money has been received and accepted by Unit Registry on behalf of the Responsible Entity. If your application has been received and accepted by 2.00pm on a Business Day ('**Cut-off Time**'), your units will generally be issued based on the

unit price for that Business Day. If your application is received on or after the Cut-off Time, it will be considered as being received the following Business Day. All times quoted in this PDS are Sydney time (unless otherwise specified).

The Responsible Entity can accept or reject any application for units at its discretion and is not required to give any reason or grounds for such a refusal.

You can make additional investments into the Fund at any time by completing an additional investment form, which is available online at www.ironbarkam.com, or by submitting a written instruction in the format advised by Unit Registry. The minimum additional investment into the Fund is \$1,000.

Withdrawing your investment

Investors of the Fund may request to withdraw some or all of their investment by either completing a withdrawal form available online at www.ironbarkam.com or by providing a written instruction in the format advised by Unit Registry.

Withdrawal requests can be made daily and must be received and accepted by 2.00pm on a Business Day for you to receive that day's withdrawal price. A minimum withdrawal amount of \$1,000 applies.

The minimum account balance is \$10,000. The Responsible Entity reserves the right to waive this requirement and allow for balances below \$10,000. Should a withdrawal bring your account balance below \$10,000, the Responsible Entity reserves the right to assume and facilitate a full withdrawal of your account. While the Fund is liquid, withdrawals will usually be paid to your nominated bank account within 10 Business Days.

You can fax your withdrawal request to 02 9323 6411 or mail to:

Ironbark Asset Management (Fund Services) Limited
C/- State Street Australia Limited - Unit Registry
Level 14, 420 George Street
Sydney NSW 2000

Access to your money

If the Fund is suspended, restricted or there is a freeze on withdrawals, Unit Registry will not process withdrawal requests within the usual period. Any decisions whether to process withdrawals or partial withdrawals will be made in the best interests of investors as a whole and in accordance with the Constitution.

During a distribution period and financial year end, there may be delays in processing your application and withdrawal requests and you may not be able to withdraw your investment within the usual timeframe.

Distributions

Any income distributions are generally paid semi-annually. The distributions are calculated based on the Fund's distributable income at the end of each distribution period ending 31 December and 30 June, and paid to investors in proportion to their unitholding. Subject to the law, Ironbark may change the distribution frequency without notice.

Investors can elect to have their distribution reinvested or paid to a nominated bank account. Investors who do not indicate a preference will have their distributions automatically reinvested. Investors will still be subject to tax on any distribution even if they elect to reinvest. There is no buy/sell spread with reinvestment of distributions.

Transferring units

You may transfer units in the Fund to another person, by completing an Australian Standard Transfer Form available online at www.ironbarkam.com with the consent of the Responsible Entity.

Indirect investors

The Responsible Entity authorises the use of this PDS for investors who wish to access the Fund indirectly through an investor directed portfolio service, a master trust, wrap account, investor directed portfolio service-like scheme or similar arrangement ('IDPS') by directing the IDPS operator to acquire units on your behalf. If you do so, you will need to complete the relevant forms provided by the IDPS operator. The IDPS operator's withdrawal conditions determine when you can withdraw. The Responsible Entity is not responsible for the operation of any IDPS. Your rights as an Indirect Investor should be set out in the disclosure document issued by the IDPS operator and you should read the disclosure document for that IDPS together with this PDS prior to investing.

You should read the important information about applications, distributions, withdrawals and transfers before making a decision. Go to the 'How the Funds work' section of the AIG, which is available at www.ironbarkam.com.

The material relating to applications, distributions, withdrawals, and transfers may change between the time when you read this PDS and the day when you acquire the product.

3 Benefits of investing in the Ironbark Royal London Core Global Share Fund

Significant benefits

- **Management expertise and research capabilities:** The Fund accesses a skilled investment management team that has an established investment process and track record. The team adopts a detailed fundamental research approach and operates within a structured framework.
- **Differentiated and repeatable investment process:** The Fund is differentiated through its use of a cash flow economic return framework and the application of its corporate Life Cycle approach, a proprietary framework that involves classifying each company into one of five categories that reflect the stages of a company's corporate life cycle. We believe the strategy uses a long-term, repeatable and robust investment process.

- **Risk-controlled framework:** The Fund benefits from a disciplined risk management construct and is overseen by the performance and risk team.
- **Access to investment opportunities and overseas markets:** The structure of the Fund pools investors' money into one unit trust. This means that investors can access and benefit from investment opportunities that typically require scale and breadth, while only investing a comparatively small amount. Although an individual may be able to directly invest in overseas stocks, a managed fund can tap into global information networks. The Fund has the infrastructure to access and trade in global markets, but in an efficient and cost-effective manner.

4 Risks of managed investment schemes

All investments are subject to risk. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk.

Selecting the investments that best match your investment needs and timeframe is crucial in managing this risk.

When considering your investment decision, it is important to understand that:

- the value of investments will go up and down;
- returns are not guaranteed;
- you may lose all or part of your investment;
- past performance is not an indicator of future performance;
- laws and regulations affecting investments may change; and
- the appropriate level of risk will vary, depending on age, investment timeframe, other assets held and your risk tolerance levels.

Your financial adviser can help you determine whether the Fund is an appropriate investment based on the above factors.

The Responsible Entity has set out below a list of significant risks that may affect your investment in the Fund. These risks are not exhaustive and there could be other risks that may adversely affect the Fund. See the AIG for additional risks.

We do not guarantee the liquidity of the Fund's investments, repayment of capital, any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. You may lose money by investing in the Fund and your investment in the Fund may not meet your objectives. The level of returns will vary and future returns may differ from past returns.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

Significant risks of investing in this Fund

Particular risks associated with the Fund include the following:

Class segregation risk	While the Constitution gives the Responsible Entity the power to attribute assets and liabilities to a particular Class, and we intend to operate the Fund in this manner, each Class does not constitute a separate and distinct trust. Therefore, there is a risk that investors of one Class may be exposed to the liabilities attributable to another Class and, conversely, there is a risk that the assets attributed to a Class may be required to discharge the liabilities attributed to another Class.
Currency risk	The Fund will invest in global securities, which are denominated in foreign currencies that will give rise to foreign currency exposure. This means that the Australian dollar value of these investments will vary depending on changes in the exchange rate. A fund that has currency risk may be adversely affected by this foreign currency exposure. For example, if the Australian dollar rises, the value of international investments expressed in Australian dollars can fall. The normal position with regard to foreign exchange exposure is for Class A to remain unhedged.
Derivatives risk	The Fund is permitted to invest in derivatives. The Fund may use derivatives for risk management purposes or as substitutes for physical securities. Derivatives are not used by the Fund for speculative purposes, or to gear the Fund. The value of derivatives can be influenced by a number of factors, including movement in the value of the underlying asset, difficulty in liquidating the derivative, or counterparty risk (this is where the counterparty to the derivatives contract cannot meet its obligations under the contract).
International investment risk	Given the Fund has exposure to international financial products additional risks may apply. These include: <ul style="list-style-type: none"> • differences between countries relating to accounting, auditing, financial reporting, taxation, government regulation, securities exchanges and transactional procedures; • foreign markets may have different levels of liquidity, pricing availability, settlement and clearance procedures; • social instability in other countries; • regulations, restrictions and sanctions may be imposed by governments or international bodies; and • investment returns from international investments are affected by exchange rate fluctuations.

Risks associated with managed investment schemes generally are set out in the AIG. These include, but are not limited to: climate change risk, counterparty risk, cyber risk, distribution risk, force majeure risk, fund risk, inflation risk, interest rate risk, investment manager risk, liquidity risk, market risk, operational risk and regulatory and tax risk.

You should read the important information about risks before making a decision. Go to the 'Risks of managed investment schemes' section of the AIG, which is available at www.ironbarkam.com.

The material relating to risks may change between the time when you read this PDS and the day when you acquire the product.

5 How we invest your money

Warning: Before choosing to invest in the Fund you should consider the likely investment return, the risks of investing and your investment time frame.

Investment objective¹	The Fund seeks to outperform the Benchmark by 1-1.25% after fees, over rolling five year periods, through investment in a diversified selection of equities on a global basis.		
Benchmark	MSCI World NR (AUD) ('Benchmark')		
Suggested investment timeframe	5 to 7 years		
Standard risk measure	6		
Risk level	High. There is a risk that investors may lose some or all of their investment. Higher risk investments tend to fluctuate in the short term but may produce higher returns than lower risk investments over the long term.		
Investor suitability	The Fund is intended to suit investors who seek long term capital growth and accept that fluctuations in investment returns may be experienced.		
Investment style and approach	<p>The Fund invests in recognised stock exchanges of any country which is a constituent of the MSCI World Index regardless of market capitalisation size and sector, through Royal London Asset Management established investment philosophy and process.</p> <p>The Fund adopts a long-only stock picking approach that invests in listed shares of 150-250 companies around the globe, which aims to:</p> <ul style="list-style-type: none"> • create shareholder wealth as a result of their intentional management strategy and/or business models; • identify stocks that are priced at a significant discount to conservative estimates of cash-based, long-term intrinsic value; and • demonstrate a reasonable investment 'margin of safety' in the analysis of the above two attributes. <p>The Fund aims to be fully invested in global listed shares, however will have exposure to cash. The combination of management strategy, capital allocation, business models, long-term valuation opportunities and an investment 'margin of safety' leads to a style that is both valuation and quality focused.</p> <p>The Fund may have exposure to derivatives or exchange traded funds for exposure management purposes.</p> <p>The normal position with regard to foreign exchange exposure is for Class A to remain unhedged.</p>		
Asset allocation	Sector	Minimum (% of NAV of the Fund)	Maximum (% of NAV of the Fund)
	Global listed equities	80%	100%
	Cash	0%	20%
	The asset allocation is only a target, actual allocations can change significantly and sometimes quickly.		

¹ The investment objective is not intended to be a forecast. It is merely an indication of what the Fund aims to achieve over the longer term on the assumption that markets remain relatively stable throughout the investment term. The Fund may not be successful in meeting this objective. Returns are not guaranteed.

We reserve the right to terminate the Fund or change the Fund's investment objectives (including the Benchmark, asset allocation and investment style and approach) and/or replace the Investment Manager at any time, in some instances, without prior notice. We will inform investors of any material changes to the Fund.

Labour, environmental, social and ethical ('ESG') considerations

Royal London Asset Management fully integrates ESG analysis into their investment process. Royal London Asset Management believes this can improve risk/return analysis, support investment insight and perform higher quality engagement activities on behalf of clients. Royal London Asset Management's ESG analysis is an explicit part of their investment process which takes into account governance, environmental and social considerations. These considerations influence the manager's valuation assessment and influences investment decisions. Additional information on the Investment

Manager's ESG process and strategy is set out in the 'How we invest your money' section of the AIG.

Fund performance

The latest available information on the performance of the Fund will be available at www.ironbarkam.com or by contacting Ironbark on 1800 034 402. Past performance is not an indicator of future performance.

You should read the important information about how we invest your money and standard risk measures before making a decision. Go to the 'How we invest your money' section of the AIG, which is available at www.ironbarkam.com.

The material relating to how we invest your money or standard risk measures in the AIG may change between the time when you read this PDS and the day when you acquire the product.

6 Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole. Taxes are set out in another part of this document.

You should read all the information about fees and costs because it is important to understand their impact on your investment. Information in the following table can be used to compare costs between different managed investment schemes.

Fees and costs summary

Example of annual fees and costs for the Ironbark Royal London Core Global Share Fund Class A

This table gives an example of how the ongoing annual fees and costs for the Ironbark Royal London Core Global Share Fund Class A can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE - Ironbark Royal London Core Global Share Fund Class A		BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING YEAR
Contribution fees	Nil	For every additional \$5,000 you put in you will be charged \$0
PLUS Management fees and costs ^{1*}	0.5000% p.a.	And , for every \$50,000 you have in the Ironbark Royal London Core Global Share Fund Class A you will be charged or have deducted from your investment \$250 each year
PLUS Performance fees	0% p.a.	And , you will be charged or have deducted from your investment \$0 in performance fees each year
PLUS Transaction costs*	0% p.a.	And , you will be charged or have deducted from your investment \$0 in transaction costs each year
EQUALS Cost of Ironbark Royal London Core Global Share Fund Class A*		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$250 ² What it costs you will depend on the investment option you choose and the fees you negotiate

¹ The management fees and costs reflect the Responsible Entity's reasonable estimate at the date of this PDS for the current financial year. Returns are not guaranteed.

² Additional fees may apply. This example does not take into account other fees and costs that may apply. Please refer to the 'Additional explanation of fees and costs' in this section and the AIG for an explanation of all additional fees and costs that may apply to you.

Any item marked with an asterisk () is an estimate.

When calculating ongoing annual fees and costs in this table, the law says we must assume that the value of your investment remains at \$50,000 and the Ironbark Royal London Core Global Share Fund Class A value does not fluctuate. The example above assumes that the \$50,000 is invested for the entire year, the value of the investment is constant over the year and that the additional \$5,000 is invested at the end of the year. Therefore, management fees and costs are calculated using the \$50,000 balance only. Ongoing fees and costs actually incurred will depend on the market value of your investment and the timing of your contributions (including any reinvestment of distributions). The example assumes no abnormal expenses are incurred, no service fees are charged and that fees are not individually negotiated. Any adviser fees payable are in addition to the fees described in this table. Contact your financial adviser for information about any adviser fees that may apply. Totals may appear incorrect due to rounding.

Warning: Additional fees may be paid to a financial adviser if a financial adviser is consulted, refer to the Statement of Advice provided by the financial adviser in which details of the fees are set out.

Additional explanation of fees and costs

Differential fees

We may negotiate different fee arrangements, such as fee rebates, waivers or reductions, with Wholesale Clients. Such arrangements would be subject to individual negotiation and compliance with the legal and regulatory requirements.

Changes to fees

We may introduce or change fees in this PDS (including increasing fees up to the maximum set out in the Constitution) without your consent. However, we won't increase our management fees or the basis for charging our performance fees, or introduce any new fees, without giving you at least 30-days' written notice. Management costs, actual performance fees charged and transaction costs may vary each year without notice.

ASIC fee calculator

To calculate the effect of fees and costs on your account balance, you can use the calculator provided by ASIC at www.moneysmart.gov.au.

You should read the important information about fees and costs before making a decision. Go to the 'Fees and costs' section of the AIG, which is available at www.ironbarkam.com.

The material relating to fees and costs may change between the time when you read this PDS and the day when you acquire the product.

7 How managed investment schemes are taxed

Warning: Investing in the Fund is likely to have tax consequences. Australian tax laws are complex and subject to change. The tax comments below are only relevant for Australian resident investors that hold their interests in the Fund on capital account. Further, they may not be relevant for investors that are subject to special tax rules such as banks, insurance companies, managed investment trusts, tax exempt organisations and dealers in securities. We strongly advise you to seek professional tax advice before making a decision to invest.

The Fund is an Australian resident for tax purposes and does not pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated

by the Fund to which they become presently entitled or for tax on any income and capital gains attributed to them under the Attribution Managed Investment Trust ('AMIT').

You should read the important information about taxation for both Australian and New Zealand investors before making a decision. Go to the 'How managed investment schemes are taxed' and the 'Additional information for New Zealand investors' sections of the AIG, which is available at www.ironbarkam.com.

The material relating to taxation in the AIG may change between the time when you read this PDS and the day when you acquire the product.
